

KPM III DOWNLOAD DIRECTIONS:

1. Click on Download on the Firmware screen.
2. When the File Download box pops up click on Save.
3. Your Modem speed will determine how long it will take to download the file. Times will range from a several minutes to over 1 Hour. Typical times for 56K modems will be 75 minutes.
4. Another window will pop up and select where you would like to save file name KPMIII_vut_update.zip (Would Recommend to save on your desktop)
5. After the download is complete click close on the download window if still visible and find the file named KPMIII_vut_update.zip (Will have a zipper on the file) from the desktop or location you saved the file in.
6. Right-click the file and select Extract All.
7. Follow the wizard and save the extracted KPMIII_vut_update_#####.dat file to your desktop or location of your choice.
8. Click finish.
6. Insert USB memory stick into computer and place the KPMIII_vut_update_#####.dat file on your memory stick.
7. Then place the USB Memory stick into bottom USB port on the KPMIII display. Turn Monitor on and the update will commence automatically.
8. The monitor will shut down when update is complete. Remove USB memory stick. The monitor will then turn back on automatically.
9. The monitor is now updated and field ready.
