

## GO INSIDE KINZE INGENUITY

Experience nearly 50 years of inspiration, imagination and hard work from one man and generations of dedicated hard-working Kinze employees, partners and friends.

Trace the history of Kinze from its humble beginnings in Ladora, Iowa, at this new 25,000-square-foot complex that houses many of the original machines, design concepts and artifacts produced primarily by founder/inventor Jon Kinzenbaw.

## FOR ALL AGES

Fun, exciting and educational, the Kinze Innovation Center is designed to appeal to all ages. Adults will enjoy the fascinating stories and original concepts behind dozens of breakthrough innovations, while kids can climb aboard and experience these innovations coming to life through a variety of interactive displays.
