

## 3110 Mounted Planters: Hydraulic Requirements

Planter Configuration	Requirements		Description
3110 Base Machine - Conventional/Mechanical Meters	0 SCV	0 gpm	No hydraulic requirements
3110 Base Machine - Conventional/Mechanical Meters and Optional Row Marker Packages	1 SCV	10 gpm	#1 SCV: Row markers with sequencing flow control valve
3110 Base Machine - Conventional/Vacuum Meters <i>»External case drain required for vacuum hydraulic circuit</i>	1 SCV	15 gpm	#1 SCV: Vacuum Metering
3110 Base Machine - Conventional/Vacuum Meters and Optional Row Marker Package <i>»External case drain required for vacuum hydraulic circuit</i>	2 SCV	25 gpm	#1 SCV: Vacuum Metering
			#2 SCV: Row markers with sequencing flow control valve
