

New Features

- Added support for Hungarian and Bulgarian Languages.

How to Update

1. Place the update file on a USB stick. Make sure it is in the root of the drive (Not in a folder).
2. With the display powered down insert the USB stick.
3. Then turn the display on.
4. The display will update and then restart.
5. Once restarted the version number should read 3.3.
6. Remove USB Stick from display.
